# WEB DESIGNER
A TASK and PERFORMANCE based Instant Challenge

**Challenge:** You have designed a product that will save the world. Now you just need a website!

For this Challenge, Website is defined as: A set of interconnected web pages, usually including a home page, and prepared and maintained by a person, group or organization.

**Set-up:** In the center of the room are 5 pieces of paper and markers for you to use.

**Procedure:** Your team will design and draw your website. You will decide on your "event" (from which you are saving the world) and plan your performance. Your website design must have 3 pages.

**Timing:**
**Part 1 (5 min.):** Your team will have 5 minutes to design, draw and plan your performance.

**Part 2 (2 min.):** Your team will have 2 minutes to present your website and performance.

**Materials:**
• 5 pieces of paper
• 8 assorted markers

**Scoring:** You will receive
A. Up to 10 points for the creativity of EACH page (up to 30 points).
B. Up to 20 points for the creativity of the team "Event".
C. Up to 30 points for creativity of the performance.
D. Up to 20 points for how well your team works together.
